

Welcome to KIDS ' site :)

[日本語](#)

What is KIDS?

KIDS are a group of people who are interested in making a change for better disaster prevention information. KIDS ' goal is to spread the knowledge of natural disaster and its prevention to lots of people, especially children. The teaching methods are through fun and easy to learn material such as drama, story-telling, coloring, etc. Through these activities, hopefully the children will understand about disaster, how to prevent, and to minimize the impact of disaster.
